

SPARE TIMES

BACK-UPS ARE ESSENTIAL !!!

Volume 1, Issue 10, FEB 2010

As we all realize, the entire world is practically running at some point on a computer. Ventilex Dryer/Cooler Systems do as well. Some of our customers run strictly on a panel view type of platform, such as an Exor panel. Others might use a more complex SCADA system, such as Wonderware or Wizcon. Regardless of which type of system you use, the mechanical equipment still relies on software to operate.

It is recommended that you keep backups of your software, and/or hard drives, on hand in order to guard against software glitches, computer/hard drive breakdowns, power surges, etc. A complete backup of a hard drive, or recovery/re-installable disc will keep down time to a minimum so you can get the computer or panel system back online quickly.

Another useful tip is to keep computer equipment, towers, panels, etc. free from dust, dirt and debris. If panels and towers become overly dusty, dirty, or clogged, poses a potential for breakdowns or hardware failure. Use an approved air can cleaner or similar to keep the equipment cleaned, or make certain to use cover protectors to help avoid this problem.

If you would like additional information on how to backup your system, or a quote to have a Ventilex technician help with the backup, please contact our offices at (513) 874-4451 and speak to Aaron Walker or Bill Powers.

DO YOU NEED A CHECK-UP ???

2010 is well under way, and we are almost through February. It is not too late to start the year off right, and plan for a complete Ventilex System check-up by a Ventilex Technician.

If you would like to get your name on the schedule to ensure your dates, please contact our offices at (513) 874-4451 and speak to Aaron Walker or Bill Powers. We can provide an estimate for a service call to make sure your system is running at optimal condition.

Don't let your Ventilex System go without its check-up, call us today!

Newsletter Spotlight:

Preventive Maintenance

Make it a standard practice to keep a backup hard drive, or a complete set of recovery discs on hand for any type of computer or software problems that may arise.

SPARE PART SPOTLIGHT OF THE MONTH

ALL SPARE PARTS !!

Now that we have entered 2010 it is time to think about what spares I want to start the new year off with. From March 1, until March 26, 2010, if you call and mention this newsletter, Ventilex is offering a 10% discount on parts for your entire spares order you place.

The more spare parts you order, the more you save. Call or email Bill Powers in our office today at (513) 874-4451 to place your order and take advantage of saving while stocking up.
